We have made some more changes to the Multicategories Component for Joomla!1.5. Here is the Changelog for version 1.0.4:

- "500 - JDatabaseMySQL::query: 1064" error fixed (discussed in our [Forum](#));
- Hit Counter for categories in Backend added;
- "# Articles" column in Backend added;
- system SEF support added.

Go to the [Multicategories Component for Joomla!1.5](#) project page to download the last version.
